

Data Protection Notice

The aim of this survey is to understand what kind of information about medicine use before or during pregnancy and breastfeeding women need, and how you and other women prefer to receive that information. We collect your data for the purpose of conducting this survey and to analyse the results of this survey as part of our research project. Since ConcePTION aims at understanding your information needs and preferences about the safety of medicines during your pregnancy and breastfeeding, we collect personal data relating to your health. But we do so only with your explicit consent. Your answers will be saved for the duration of the project, until March, 2024, and analysed by ConcePTION's researchers.

We (the members of the ConcePTION project) your data as joint data controllers. The full list of members is available [here](#).

If you wish to have further details on how we process your data, please consult our [Survey Privacy Notice](#).

If you have any questions or comments on how we handle your personal data or wish to exercise any of the rights listed in said Notice, please contact [Helena Harnik](#).
